Github Link: https://github.com/HaydenDuong/SIT305-Mobile_Application_Development/tree/main/Task%208.1C

Video Link: https://deakin.au.panopto.com/Panopto/Pages/Viewer.aspx?id=d4e9a618-1dde-497a-aee9-b2ed00927eba

Explanation:

My HD-task application was built upon task 8.1C by leveraging the existence of both the frontend and backend files and updated / refined to matching with my proposal application in 4.0HD report.

Thus, the provided github link is pointed to 8.1C – which can be considered as an updated version of 8.1C.
